Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This registration does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time, that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of FIFRA.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) and is subject to the following terms:

- 1) The subject registration is limited to a combined yearly total of 20,000 acres or less in the U.S. with no more than 1,000 acres per county per year (per municipio in Puerto Rico) for breeding purposes, agronomic testing, and producing seed in the United States.
- 2) Monsanto must submit reports on IRM monitoring and remedial action plans to EPA annually by August 31st each year.
- 3) Upon request, Monsanto must provide EPA by January 31st each year annual reports on the acreage where MON 87751 x MON 87701 has been grown by States and territory.
